

Public Schools Cybersecurity Symposium

Tuesday, September 26, 2023

OASBO Conference Center
98 Commerce Park Drive | Westerville, OH 43082

Public schools are facing increasing cyber threats, making it hard for school leaders to keep their data and systems secure. Without a solid understanding of current cyber security trends and best practices, districts are leaving themselves vulnerable to data breaches that can be incredibly costly and damaging.

The Public Schools Cybersecurity Symposium is the perfect resource for school district leaders looking to gain insight into the latest strategies and tools for protecting their data. Attendees will learn from experienced professionals in the field about what they need to know to stay ahead of the threat curve. Join OASBO, OSBA, and BASA for this invaluable event!

Registration is \$175 for members and non-members. The conference will be offered live in person at OASBO's Conference Center, 98 Commerce Park Drive, Westerville, Ohio 43082 and will also be live-streamed through Zoom, so you may register to attend in-person or virtually.

AGENDA

8:00 a.m. Registration

8:15 a.m. Welcome & Introductions

Jim Rowan, Executive Director, OASBO

Dr. David Axner, Executive Director, BASA

Kathy McFarland, Executive Director, OSBA

8:30 a.m. Artificial Intelligence - Opportunities and Challenges

Dr. Bill Daggett, Founder, Successful Practices Network

Artificial Intelligence will impact school districts in multiple ways. Dr. Daggett will describe what AI is and the boardroom to classroom challenges and opportunities it will bring to our school districts. He will then describe the impact it is having on the skills, knowledge, and attributes our students will need to be successful in the changing workplace and society. He will conclude by providing specific strategies districts may want to consider to position schools and their students for future success in the age of AI.

Learning Outcomes:

- Participants will be able to describe what Artificial Intelligence is and its impact on schools and students.
- Participants will gain an understanding of both the challenges and opportunities AI brings to school districts from boardroom to classroom.
- Participants will learn what the skills, knowledge, and attributes are that our students will need to be successful in the workplace and society as we enter the age of Artificial Intelligence.

10:00 a.m. Break

10:15 a.m. Cybersecurity

Tom Munson, Director of Strategic Partnerships, DataServ Integrations, LLC

Adam Lawson, Supervisory Special Agent - Cyber Squad, FBI

Mike Ugljesa, Program Administrator, Hylant Administrative Services

Alex Clark, Cyber Leader, Hylant Administrative Services

12:00 p.m. Lunch

1:00 p.m. Cybersecurity Crisis Management: A Roadmap for Data Breach Incidents for K-12 Leaders

Bricker Graydon Representatives

Learning Outcomes:

- Understand the importance of having a well-defined and tailored incident response plan.
- Learn the key steps to take when responding to a data breach incident, from initial assessment through recovery.
- Explore strategies for effectively communicating with stakeholders during a data breach.

- Discover best practices for conducting forensic investigations to identify the source and extent of the data breach.
- Gain insights into legal and regulatory obligations related to data breaches in the education sector.
- Understand the role of staff training and awareness programs in promoting a culture of cybersecurity and preparedness.
- Learn about resources, tools, and partnerships available to assist K-12 schools in enhancing their cybersecurity posture and incident response capabilities.
- Take away practical tips for ongoing monitoring, evaluation, and continuous improvement of data breach response procedures.

1:50 p.m.

Break

2:00 p.m.
